Rural Route #8
Box 48
Decatur, Illinois 62522

Dear Mr McKinney

Your solid waste disposal facility located west of Decatur was inspected on September 26, 1978, by Les Frankland, representing this Agency

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations

Solid Waste received on the previous operating day did not receive cover material. By the end of each operating day, a compacted layer of at least six (6) inches of suitable natural earthen material shall be placed on all exposed solid waste

Final cover was found to be inadequate over two areas (see map) of the completed fill area on the date of the inspection. You should correct these deficiencies before winter weather begins.

Your early compliance in this matter will be appreciated. In the event that you have any questions regarding compliance, please feel free to contact Les Frankland or me at the above number.

Sincerely

Monte M. Henkert, Acting Regional Manager
Land Field Operations Section
Division of Land/Noise Pollution Control
